

LOCAL NOTICE TO MARINERS No. 06 of 2014

Tidal Powered Generator Test Rig

MARINERS ARE ADVISED that a tidal current powered generator test rig will be deployed beneath the western span of the Arun footbridge – the Red Bridge.

The generator which floats just below the surface between two sets of pontoon is 4m x 2m and is marked by four buoys positioned at each corner. It is secured to risers on the western side of the wooden fendering on the western support to the bridge.

The generator will be deployed on Friday 13th June and will be in position over the weekend of 14th-15th June. Intended recovery is Monday 16th June.

Mariners are advised against using the western span of the footbridge for the duration of the deployment of this piece of equipment.

Owners, Agents, Charterers, Marinas, Yacht Clubs and Recreational Sailing Organisations should ensure that the contents of this Notice are made known to the masters or persons in charge of their vessels or craft.

Cancel this LNtM on recovery of the rig on or after 16th June 2014.

A handwritten signature in blue ink that reads "Billy Johnson".
