PRODUCT MARKETING

A full range of Black and Coloured ribbons available in hundreds of sizes, most ready to ship on a next day delivery to suit all types of Barcode / Label and Coding Printers.

Ribbon types:

Our supply service covers all labelling materials, formats and applications.

WAX – A wax ribbon is the lowest cost of Thermal Ribbon, we offer a Standard and Enhanced range which offers good smudge resistance. Our range includes the best UK sellers like the Armor AWR470 / AWR8 / AWX-FH and the ITW B220. Choice of Black and Colours

WAX/RESIN – A Wax/Resin ribbon combines wax and resin to make ribbons that are smear and smudge resistant with excellent print on a full range of paper and some synthetic labels. We offer a huge range of flexible wax/resin ribbons to suit Standard printers that includes the Armor APR6 and the ITW B121 / B128 and also for Near-Edge or Coding Printers like the Armor APR600 and ITW B112 / P110. Choice of Black and Colours

FULL-RESIN – A Full-Resin ribbon are designed for virtually indestructible print for indoor or outdoor use on a range of mainly Synthetic and Fabric materials. When you need print for extreme or harsh environments look no further than the Armor AXR7+ / AXR8 and the ITW B324 / B325.

We also offer a full range of Genuine Branded ribbons that includes the Toshiba AG2 / AG3 / AS1 range and the Zebra 3200 / 2300 / 5100 range.
